

Physician Fire Starter Award

Dr. Richard Gwinn

Sharp Rees-Stealy Urgent Care

Dr. Jay Kaplan

Studer Group

To celebrate the success of one of this year's most promising shifts in our national learning lab - a shift in active physician leadership in service and operational excellence - Studer Group is proud to honor physicians who keep the flame alive for patients, employees, and colleagues. A "Physician Fire Starter" engages others and is a leader in clinical and service excellence.

Demonstrating passion, commitment, and measurable outcomes through physician and patient satisfaction, as well as clinical performance, this individual defines the highest standards of medical care.

Fire Starter
